marvel vs capcom infinite zero costumes

Lovely collection of shmup mini-games. Single player is great for chasing a high score or moving up the global leaderboards. 2-4 multiplayer is a blast, one of the better 'couch multiplayer' experiences you can have on Steam. The online score board has replays which is very helpful and a nice touch for a \$5 game.

Important to note that this game doesn't allow you to configure a rapid fire button. This is important because scoring in this game is significantly easier with rapid fire, so you'll need a controller with a rapid fire option. Or just do it the old fashion way and get carpal tunnel.. Don't know why this game has so many great reviews, just trying to navigate in the game sucks any fun out of it. Can't enjoy a game when you spend 30 minutes stuck trying to zoom out and move.. it scream at me. Probably not worth \$15 USD but there is something very addictive about this game.. THis game is so overwhelmingly

A simple but fun twin-stick bullet hell shooter. Short but easily worth the price paid.. Pro:

1 Attack is enough...

Extreme Easy

You need round about 30-45 Minutes to play every level and get all achievements. Its only a short timekiller.. Was cancerific. I just got it and i enjoy it very much!! But it needs som fixes!

I really want to build the buildings where i want and i hope you change that. Not the best gameplay, as I'm not a fan of shoot em up style games and it was frustrating at times. Never-the-less, the story was well put together and told from a clever perspective that kept me playing regardless.. As Carl from ATHF would put it, "Classic. Total Classic.". The Bussy 3d of farming simulators.
